Dear Congresswoman Kelly,

I think what you do is very interesting. I also think it is very complicating and confusing. It also sounds very hard, but it seems as though you are very good at your job.

I have one question, are you proposing any new laws and will they affect me? The law making process plays a big role in our community and country. It is very important that all people have a chance to vote.

I enjoyed your visit to our school. I found it very interesting. Good luck with your job.

Sincerely,  
Nicole
